

THREE ANCHORS

Vision

Our shared vision is that research libraries will be even more intimately involved in supporting the full life cycle and activity range of knowledge discovery, use, and preservation, as well as the curation and sharing of knowledge in diverse contexts of the university's mission and of society more broadly.

Mission

ARL achieves this vision through our mission to foster the open exchange of ideas and expertise, promote equity and diversity, and pursue advocacy and public policy efforts that reflect the values of the library, scholarly, and higher education communities. ARL forges partnerships and catalyzes the collective efforts of research libraries to enable knowledge creation and to achieve enduring and barrier-free access to information.
