Every effort has been made to ensure that the information in this publication is accurate. Nevertheless, limitations exist as regards the reported data. Definitions, collection and reporting methods may vary amongst institutions. Conclusions and comparisons should be made only in conjunction with other assessment methods and with due regard to different organizational structures, goals, priorities and practices.

Nous avons fait tous les efforts nécessaires pour assurer l'exactitude des renseignements dans ce document. Il existe toutefois des limites en ce qui concerne les données déclarées. Les définitions, ainsi que les méthodes de collecte et de déclaration peuvent varier selon les établissements. Pour tirer des conclusions et faire des comparaisons, il faut absolument aussi avoir recours à d'autres méthodes d'évaluation et tenir compte du fait qu'il y a des différences entre les structures, les buts, les priorités et les pratiques des établissements.

Change from previous years:

All provincial, regional and national averages and ratios are now calculated by adding and dividing the values provided by each institution. In the past, these were calculated by averaging the averages or averaging calculated ratios. The same applies for calculating medians.

Changement par rapport aux années précédentes :

Toutes moyennes et tous ratios provinciaux, régionaux et nationaux sont dorénavant calculés en additionnant puis en divisant les valeurs fournies par chaque établissement. Par le passé, celles-ci étaient calculées en faisant la moyenne des moyennes ou la moyenne des ratios calculés. Le même changement est en place pour calculer les médianes.

 - 10.1. Nombre d'ETP des inscriptions du premier cycle
 - 10.2. Nombre d'ETP des inscriptions des deuxième et troisième cycles
 - 10.3. Total, ETP de toutes les inscriptions

Endnotes to Expenditures, Establishment and Collection Size Questionnaire

Notes finales du questionnaire sur les dépenses, établissements, et collections

¹ This is the University of Calgary's first reporting year since migrating our Library Management Systems. Discrepancies between this year's numbers and the previous year's numbers may be a result of the migration.

² Fringe Benefits - Campion and Luther College Libraries (in federation with University Library) do include fringe benefits in Wages and Salaries whereas University of Regina Library and First Nations University of Canada Library (in federation with University Library) do NOT include fringe benefits in Wages and Salaries. These are reported separately. This is a change from previous years.

³ Decrease due to ebook record cleanup.

⁴ Western's fiscal year ran from May 1, 2018 to April 30, 2019 Western, along with 13 other OCUL libraries has been working on launching a new library services platform. As a result of a freeze and subsequent go-live challenges it is not possible at this time to provide up-to date data on library expenditures. The information included reflects the previous years expenditures.

⁵ In past years we reported on the total # of "items" (meaning each copy of a book, each issue of a serial title etc. was distinctly counted; this is in part due to how stats in Amicus reports were presented. Now that we have OCLC we are able to more accurately report on the # of titles in the collection as requested here. This number is significantly lower because duplicate copies and serial issues of a given title are no longer included. We have not removed titles from the collection.

⁶ Increase from prior year is due to a decision to not spend the full budget in 2017-18 and instead have extra funds to carry over to 2018-19 as it was expected we would spend more to cover inflation and currency exchange.

⁷ \$1 million spent to acquire the Glenbow collection.

⁸ The reduction in spending in 2018/19 is due to fewer OTP funds being available at fiscal yearend to purchase archives/backfiles.

⁹ Includes: access fees (\$10,388); article fees (\$19,330); binding (\$19,485); collection appraisal (\$8,890); membership fee : (\$24,614) music supplies (\$4,320); online Services (\$19,600) Postage (\$87) miscellaneous vendor fees (\$0) this was absorbed into collections.

¹⁰ One-Time resource purchases. Amounts for 2018/2019 are correct, 2017-2018 was an anomaly that was clarified previously.

¹¹ The one time purchases in 2018-19 were significantly lower compared to 2017-18.

¹² 2018-19 one-time spending higher because of some additional year-end spending from other savings.

¹³ Increase mostly related to a 2017-2018 FY purchase that was carried over into 2018-2019 FY accounting.

¹⁴ Collection support expenditures are now reported in Other Operating Expenditures.

¹⁵ Expenditures (Library materials: Increase resulting from funding to support new Law program, inflation compensation and currency exchange relief.

¹⁶ Interlibrary loans costs increased by \$16,000 from the previous year, due to increased international borrowing.

¹⁷ Previous year amounts included software expenditures that are now included in the category Other operating expenditures.

¹⁸ Spending on one-time materials dropped as continuing costs increased with inflation.

¹⁹ Increase linked to subscription cost inflation.

²⁰ Increase in collection support costs linked to increasing ILL costs, the addition of new subscriptions associated with scholarly communication and open access support.

²¹ Received fewer requests for on-demand resources.

²² In 2017-18 some professional staff salaries were incorrectly counted as support staff salaries. This has been corrected for 2018-19.

²³ Increase from prior year is due to additional casual hires for the BARD to RCRF move, which were hired up to Summer 2018.

²⁴ Explanation for difference over last year currently unavailable.

²⁵ Funds from Young Canada Works grants, Heritage grants, and Endowment funds.

²⁶ Expenditures - Casual Staff - First Nations University of Canada did not report in previous year. This library was without a library technician and relied heavily on student assistants.

²⁷ Increased salary expenditures are due to an increase in the number of term appointments, retroactive payments, and increase student labour costs.

²⁸ A combination of above plus additional costs for librarian term positions.

²⁹ We report on the actual salary paid out for each position (rather than the annual salary), and last year we had 7 positions that only had partial salaries (e.g. the position was vacant for part of the year) â€“ this year, those positions had a full year of salary dispersed. Also, we had 5 professional advancements throughout the year, and 1 additional librarian was hired.

³⁰ Includes \$106,485.65 in staffing expenditures for the Concordia University Press.

³¹ Plusieurs projets ont nécessité l'embauche de personnel temporaire.

³² Previous year wages were higher due to special projects.

³³ Increase due to additional temporary staff at MacRae Library plus increase in minimum wage.

³⁴ Decrease from prior year is because in the prior year there were more moving costs related to the BARD to RCRF move.

³⁵ Includes extended health care, dental, accidental death and dismemberment, pension, wellness spending, tuition support, and professional expense reimbursement.

³⁶ Explanation for difference over last year currently unavailable.

³⁷ Significantly less because fringe benefits are not included in the total in Q4.3.

³⁸ Replacement of desktop computers. 50% implementation fee towards new OCUL CF (LMS) solution.

³⁹ Includes \$3,848.62 expenditures for Concordia University Press employees.

⁴⁰ Includes \$40,397 in expenditures for the Concordia University Press.

⁴¹ Augmentation due à des projets spéciaux.

⁴² Currency exchange forecasts and actuals. (rationale from 3.4, 4.1 & 4.2)

⁴³ In 2017-18 some professional staff FTE were incorrectly counted as support staff. This has been corrected for 2018-19.

⁴⁴ In 2017-18 some professional staff FTE were incorrectly counted as support staff. This has been corrected for 2018-19.

⁴⁵ Total professionals FTE: New Research Data Librarian and Collection Assessment Librarian; APSA New Finance Manager, Digital Humanities Developer, and PKP Systems and Development Coordinator.

⁴⁶ A new department within the Libraries was created which created additional staffing needs.

⁴⁷ There were new positions created within the Press, Archives, and Human Resources.

⁴⁸ A new department within the Libraries was created which created additional staffing needs.

⁴⁹ Increase from prior year was because new positions were created within the Press, Archives, and HR.

⁵⁰ As of June 30, 2019

⁵¹ The 2017-18 answer did not include librarians who were employed on short term CUPE contracts. These are professional positions that require an MLIS. We have included librarians on CUPE contracts for the 2018-19 fiscal year.

⁵² Decrease due to employees taking advantage of early exit (retirement) program including some in previous year for which we were still paying severances costs into 2018. Also a couple of support staff promoted to professional positions.

⁵³ Increase due to a number of term appointment hires.

⁵⁴ Increase due to number of term appointment hires.

⁵⁵ The increase in FTE Librarian positions was mostly due to our engagement in special projects related to adoption of a new Library Management System (LMS, Omni).

⁵⁶ The increase in FTE Other Professional positions was related to a promotion to a support staff into this category and our engagement in special projects related to adoption of a new Library Management System (LMS, Omni).

⁵⁷ The total increase in Total Professional FTE is mostly due to TFT special project secondment backfills during the planning and adoption of the new LMS system.

⁵⁸ Support staff FTE changes are due to a combination of retirement, attrition, promotion and job redesign, all of which contributed to a net loss of positions.

⁵⁹ Library staffing in 2018-19 was reduced following budget cuts in 2017-18.

⁶⁰ Two full time contract positions.

⁶¹ Our number is down from the previous year because we hired more casual staff in 2017/18 than normal (2017/18 was a bit of an anomaly).

⁶² This fiscal year encompassed an Organizational Renewal initiative (ORI) that saw the system reorganized along functional lines. At the Beginning of the year several staff members retired.

⁶³ This fiscal year encompassed an Organizational Renewal initiative (ORI) that saw the system reorganized along functional lines. At the Beginning of the year several staff members retired.

⁶⁴ Includes our Researcher in Residence (0.7 FTE).

⁶⁵ Decrease attributable to vacant support staff positions in Killam Library.

⁶⁶ Decrease in casual hours in Killam and MacRae libraries.

⁶⁷ #10.1 and 10.3 - The Fall 2019 term saw a significant increase in undergraduate registrations in particular. UM Today News noted that this was a "record level of enrolment" - <https://news.umanitoba.ca/u-of-m-continues-record-level-of-enrolment/>

⁶⁸ Enrollment numbers for previous year were incorrectly submitted.

Emerging Trends Questionnaire

Research Services

1. Archives and Special Collections
 - 1.1. Are archives and special collections managed by the library (yes/no)
 - 1.2. Manuscripts and archives
 - 1.2.1. Are university records included in the collections recorded at 1.2? (yes/no)
 - 1.3. Expenditure related to these collections
2. Digital Collections
 - 2.1. Total Number of digital objects
 - 2.2. Size of digital files (TB)
 - 2.3. Total # of items in the Institutional Repository
 - 2.3.1. # of articles
 - 2.3.2. # of Theses and dissertations
 - 2.3.3. # of other items
3. E-Publishing
 - 3.1. Does your library store faculty research data (Yes/No)
 - 3.2. Does your library manage an Author's Fees fund? (Yes/No)
 - 3.2.1. # of Grants awarded
 - 3.2.2. Total amount of funds awarded
 - 3.2.3. % of funds dedicated to open access publishing

Questionnaire sur les tendances nouvelles

Services de recherche

1. Archives et collections spéciales
 - 1.1. Les archives et les collections spéciales sont-elles gérées par la bibliothèque? (oui/non)
 - 1.2. Manuscrits et archives
 - 1.2.1. Les dossiers de l'université sont-ils compris dans les collections indiquées à 1.2? (oui/non)
 - 1.3. Dépenses liées à ces collections
2. Collections numériques
 - 2.1. Nombre total d'objets numériques
 - 2.2. Taille des objets numériques
 - 2.3. Nombre total d'éléments dans le dépôt institutionnel
 - 2.3.1. Nombre d'articles
 - 2.3.2. Nombre de thèses et de mémoires
 - 2.3.3. Nombre d'autres éléments
3. Édition électronique
 - 3.1. Votre bibliothèque stocke-t-elle les données de recherche du personnel enseignant? (oui/non)
 - 3.2. Votre bibliothèque gère-t-elle un fonds d'honoraires des auteurs? (oui/non)
 - 3.2.1. Nombre de subventions accordées
 - 3.2.2. Montant total des subventions accordées
 - 3.2.3. Pourcentage des fonds réservés à l'édition en libre accès

Endnotes to Emerging Trends Questionnaire

Notes finales du questionnaire sur les tendances nouvelles

¹ Additional \$35K collections expenditures and new Library assistant position.

² Decrease from prior year is due to Archives re-locating and starting to re-acquire records at the beginning of 2019.

³ The data for this question was gathered incorrectly this year. Due to the disruption of the COVID-19 pandemic, it is not possible for us to reassess this question by the survey deadline.

⁴ Manuscripts and Archives (linear metre)-the University of Regina re-vamped our measurement procedure to take into account all of our collections. Materials in the map cabinets and the blueprints and 3D items, for example, were not included in our traditional measure that simply counted the "stacks". This new number should be more representative our true collection size. It will mean a one-time bump in our number.

⁵ Expenditures related to these collections - increase in salaries of over \$20,000 from the previous year. Purchase of AV equipment and other related computer equipment. First Nations University of Canada reported this period and had not previous year.

⁶ Errors were made in calculating this number in the past.

⁷ The positive change in expenditures is related to the return to normal operating processes and expenditure patterns after a year of renovations.

⁸ This lower figure represents a correction to the Health Sciences library archives measure from 2017/18.

⁹ The figure for 2017/18 does not include salaries.

¹⁰ Decreased expenditures are the result of staffing changes related to these collections.

¹¹ includes one additional staff position and more appraisal costs.

¹² This number is expected to continue growing as we add new archives to our collections each year.

¹³ Expenditure related to these collections: Change do to altered data collection procedure and inconsistency due to resignation of previous Assessment Librarian as per Organizational renewal.

¹⁴ 622.125m music, 3154.33m rare books, 139m Lowy collection.

¹⁵ NRC no longer does linear meter counts.

¹⁶ The total object count and storage space are considerably lower than last year, but they are more accurate as well. More accurate object count is due to a cleanup of the indexes on our Islandora instances, and storage is less due to cleanup done in preparation for migration of our infrastructure to IT Services.

¹⁷ The total object count and storage space are considerably lower than last year, but they are more accurate as well. More accurate object count is due to a cleanup of the indexes on our Islandora instances, and storage is less due to cleanup done in preparation for migration of our infrastructure to IT Services.

¹⁸ Article submissions continue to increase, likely due to the granting agency mandates and promotion of the SFU Open Access Policy.

¹⁹ Please note changes in figures provided for previous fiscals: 2014/15 total was 5617 2015/16 total was 6713 2016/2017 total was 7497 2017/2018 total was 9754.

²⁰ Increase from prior year was in general an increase in the number of digital objects.

²¹ Increase from prior year is a result of more digitization done at Internet Archive this year.

²² These numbers are expected to increase as more content is added to our digital collections.

²³ These numbers are expected to increase as more content is added to our digital collections.

²⁴ This year we include files counted in the Dataverse repository (launched 2016) as well as our main MSpace repository. Dataverse files may not have been counted previously.

²⁵ We received some large archival donations in digital format. Answer is correct.

²⁶ Size of digital files (TB)- The majority of our digital files (7.18TB) are archival donations which have minimal processing besides a basic finding aid and a file list. They are made available to researchers on request. Because of the large archival donations in digital format (see footnote for 2.1), the size of the files increased correspondingly.

²⁷ Answer is correct. Some of the theses which would regularly be released during the 2017-2018 fiscal year not were released and accessioned until after the fiscal year end, leading to fewer theses released in 2017-2018 and a higher number released in 2018-2019.

²⁸ The majority of our digital files (600,000) are archival donations which have minimal processing besides a basic finding aid and a file list. They are made available to researchers on request. In 2018-19, we received two very large archival donations.

²⁹ Content migration from Contentdm to Islandora means some content not counted.

³⁰ Content migration from Contentdm to Islandora means some content not counted.

³¹ Increase coincides with the campus-wide rollout of HARVEST, whereas previously most IR entries were from library faculty plus electronic theses.

³² Increase due to increased support for IR.

³³ Some of the increase due to retro digitization work.

³⁴ The numbers reflect growth in the number of digital objects in several areas. Specific areas of growth in the library's digital holdings include new journal articles published (OJS), Maps and GIS data, and new oral history projects (ARC)

³⁵ This large difference is due primarily to a large data ingest of a machine learning project creating over 2.5 million records in the data repository.

³⁶ Two large bulk ingests were performed during the year: The machine learning project (see 2.1) in the data repository and another into the institutional repository of over 160 GB in size.

³⁷ This large difference is due primarily to a large data ingest of a machine learning project creating over 2.5 million records in the data repository.

³⁸ This difference falls in line with the typical growth that we have seen for the ETD collection.

³⁹ This large difference is due primarily to a large data ingest of a machine learning project creating over 2.5 million records in the data repository.

⁴⁰ Geospatial Information Systems acquires and stores digital files every year, and this type of increase is expected on an annual basis.

⁴¹ Digital collection includes institutional repository (<https://spectrum.library.concordia.ca/>), special collections items that were digitized (<https://concordia.accesstomemory.org>), and our collection of streaming media (<https://hml.library.concordia.ca/Account/Login>).

⁴² The increase in the size of the Library's digital collections is a result of the development of our digital Special Collections and an updated inventory.

⁴³ The increase in the size of the Library's digital collections is a result of the development of our digital Special Collections and an updated inventory.

⁴⁴ Le nombre d'objets numériques éclaré en 2018-2019 a diminué car l'ancienne statistique était basé sur une erreur d'interprétation des directives. Le volume en téraoctets a néanmoins augmenté, car les objets retranchés du compte représentaient un faible volume par rapport aux objets géospatiaux qui s'ajoutent chaque année à nos collections.

⁴⁵ Number of TBs fluctuates with data curation and systems administration activities. For example, local digital storage maintenance projects may cause temporary duplication at the time of reporting. Data recovery projects may result in temporary storage of data that is later discarded.

⁴⁶ In past years we reported the total number of files in the electronic collection (this figure is so large b/c it includes all component files of a single resource i.e. a single ebook can have 100s of individual files). The figure is lower this year b/c we are now using OCLC to report distinct titles and is in fact what CARL wants as per the definition document to "use unique bibliographic identities to determine the number of objects".

⁴⁷ This figure is larger than in past years b/c we only reported content stored in EPPS and not electronic collections stored on data2 and elsewhere. This figure is more accurate but doesn't indicate we have greatly increased our acquisitions this year, only that we are now including previously excluded holdings.

⁴⁸ LAC doesn't have an institutional repository as per the technical definition but we do consider the Theses Canada Portal to be a combined repository for scholarly output. This is the number of digital Theses publicly available via the Portal. As per note above the figure is also lower b/c we are no longer including the number of digital serial issues.

⁴⁹ This number has decreased slightly due to the removal of duplicate records in the Theses collection. We have not added or removed Theses content in this reporting period.

⁵⁰ Factors contributing to increase: maturity of grants through TriCouncil OA requirements; opening fund to graduate student applications.

⁵¹ Increase is the result of an increased uptake of our library's author's fund.

⁵² Error in interpreting previous years' response. We do not store research data locally.

Use, Facilities and Services Questionnaire

1. Electronic Resources

- 1.1. Number of sessions (logins) to databases or services.
- 1.2. Number of searches (queries) in databases or services.
- 1.3. Number of successful full-text article requests.

2. Collections Use

- 2.1. Number of initial loans

3. Library instruction and facilities

- 3.1. Number of library presentations to groups
- 3.2. Number of total participants in group presentations reported on line 3.1
- 3.3. Total number of reference transactions
- 3.4. Turnstile count
- 3.5. Number of seats

4. Document Delivery Traffic

Lending

- 4.1. Total number of requests received (filled and unfilled)
 - 4.1.1. Total number of requests received from other institutions filled
 - 4.1.2. Number of originals sent
 - 4.1.3. Number of copies sent

Borrowing

- 4.2. Total number of requests sent (filled and unfilled)
 - 4.2.1. Total number of requests filled by other institutions
 - 4.2.2. Number of originals received
 - 4.2.3. Number of copies received

Questionnaire sur l'utilisation, installations et services

1. Ressources électroniques

- 1.1. Nombre d'ouvertures de session dans les bases de données ou les services
- 1.2. Nombre de recherches ou d'interrogations dans les bases de données ou les services
- 1.3. Nombre de demandes satisfaites d'articles intégraux

2. Utilisation des collections

- 2.1. Nombre de prêts initiaux

3. Présentations de groupe

- 3.1. Nombre de présentations de groupe
- 3.2. Nombre total de participants aux présentations de groupe à la ligne 3.1
- 3.3. Nombre total de questions de référence
- 3.4. Compte au tourniquet
- 3.5. Nombre de places assises

4. Trafic de livraison de documents

Prêts

- 4.1. Nombre total de demandes reçues (satisfaites ou non)
 - 4.1.1. Nombre total de demandes reçues et satisfaites en provenance d'autres institutions
 - 4.1.2. Nombre d'originaux envoyés
 - 4.1.3. Nombre d'exemplaires envoyés

Emprunts

- 4.2. Nombre total de demandes envoyées (satisfaites ou non)
 - 4.2.1. Nombre total de demandes satisfaites par d'autres institutions
 - 4.2.2. Nombre d'originaux reçus
 - 4.2.3. Nombre d'exemplaires reçus

Endnotes to Use, Facilities and Services Questionnaire

Notes finales du questionnaire sur l'utilisation, installations et services

¹ Counts are from DB1 COUNTER data using same retrieval method as previous year but may be incomplete or incorrect.

² Significant drop in some database sessions, namely: EBSCO Business Source Complete from 152K to 72K and Psych Info from 400K to 350K; Adam Matthews Slavery, Abolition . . . from 40,794 to 115.

³ Dramatic decrease was due to migration of services, making some statistic unavailable. #4.1.1. Error in last fiscal's number. The correct # is 9,528 (NOT 6,816).

⁴ No data available in ALMA.

⁵ This number is arrived at by pulling the Sushi counter data from ALMA. The previous data relied upon a subset of our largest electronic products but not the full suite of electronic products.

⁶ This number is arrived at by pulling the Sushi counter data from ALMA. The previous data relied upon a subset of our largest electronic products but not the full suite of electronic products.

⁷ Number pulled from ALMA Analytics.

⁸ There have been no changes in the collection or reporting of initial loans. The decrease from last year may be indicative of a shift towards increased use of electronic resources.

⁹ This is for the calendar year 2018 not the fiscal year. 1.3 Includes 6 journal packages (CKRN:Oxford,Elsevier, Sage,Taylor & Francis, Wiley-Blackwell and Project Muse (COPPUL).

¹⁰ This field no longer reported on COUNTER 4.

¹¹ 2018 calendar year; includes psycINFO & Project Muse.

¹² 2018 calendar year; includes Project Muse, CRKN (ACS, CAIRN, Cambridge, Elsevier, Erudit, IOP, JSTOR, NRC, Oxford, RSC, Sage, Springer, T&F, Wiley).

¹³ Decrease reflects emphasis on electronic material resulting in decreased circulation of physical material. Also excludes 192 Special Collections in-house circulations. Although not included in the total, in 2018/19, we recorded 3740 files/items retrieved from the archival collection (not catalogued in Sierra). Of these, approx. 49% were used by library patrons in person, based on the means of access recorded for the 632 users accessing this material. The remainder of the material was used by staff to respond to reference enquiries, including scanning or copying items for remote users. A portion of this total includes Special Collections material signed out to patrons without a library card (289 items).

¹⁴ number is unreliable due to data breaches.

¹⁵ The demand for print resources continues to decline. Affected by both user appetite and UG's policy of e-preferred acquisitions for a science-discipline focused university.

¹⁶ These numbers may be impacted by a change of ILS and assessment tool in December 2019, impacting availability of accurate statistics for the reporting period. Usage for many providers not included in Intota. Expect more accurate results from Alma next year.

¹⁷ Represents full-text article requests (COUNTER R4 JR1) for select content in the calendar year 2018. Includes TDM activity where captured in the vendor's COUNTER JR1 reports. List of vendors included in question 18: AIP Scitation, Allen Press, American Association for the Advancement of Science (AAAS), American Chemical Society, American College of Physicians (Annals of Internal Medicine), American Diabetes Association (Diabetes Care), American Institute of Aeronautics and Astronautics, American Mathematical Society, American Physical Society, American Physiological Society , American Phytopathological Society, American Psychiatry Publishing, American Society for Microbiology, American Society of Civil Engineers (ASCE), American Society of Clinical Oncology, American Thoracic Society, AMSUS, Annual Reviews, Association for Computing Machinery, ASTM, Begell House, BioOne, Blackwell, BMJ and BMJ journals, Brepols, Brill, British Journal of General Practice, CAIRN, Cambridge University Press, Chemical Society of Japan, Corrosion, Crystallography Journals Online, de Gruyter, Duke University Press, Duncker & Humblot, Earthquake Spectra, EBSCO, Elgar, Elsevier, Emerald, Erudit, FASEB Journal, Gale, GeoScienceWorld, Guilford Press, Harvard Educational Review, Highwire, Human Kinetics Journal, ICE (Engineering Collection), IEEE, IGI Global, Inderscience Online, Informa Healthcare, Informs PubsOnline, Ingenta, Institute of Physics, IOS Press, IWA Publishing, JAMA, Journal of Clinical Pediatric Dentistry , Journal of Neurosurgery, Journal of Orthopaedic & Sports Physical Therapy, Journal of Psychosocial Nursing and Mental Health Services, Journal of Studies on Alcohol and Drugs, JSTOR, Karger, Kluwer, Kluwer Law, Liverpool University Press Online, LWW Total Access, Maney Online, Mary Ann Liebert, MIT Press, Nature, New England Journal of Medicine, NRC Research Press, OECD, Optical Society of America, Oxford University Press, Project Euclid, Project Muse

(Premium Collection), ProQuest, Psychoanalytic Electronic Publishing, Royal Society of Chemistry, SAE, Sage, Sage Reference, SPIE, Springer, Springer Nature, Taylor & Francis, Thieme, Trans Tech Publishers, University of Toronto Press, University of Chicago Press, Wiley (including Blackwell) #3.4 The gatecount total reflects traffic from some but not all library locations within the University of Toronto Libraries system.

¹⁸ Declining to answer this question as 'sessions' have not been included on COUNTER reports since Release 3.

¹⁹ Western, along with 13 other OCUL libraries has been working on launching a new library services platform. As a result of a freeze and subsequent go-live challenges it is not possible at this time to provide up-to date data on electronic resources and collections use. The information included reflects the previous years expenditures or has been left blank Use, Facilities and Services

²⁰ 2017-18 number should have been 1,631,849.

²¹ This number is not collected in COUNTER 4.

²² The databases on the following platforms were included (number of searches in brackets): Adam Matthew Digital Collection (630) Alexander Street Press Core Collections (9618) Alexander Street Press Classical Scores Library (605) Alexander Street Press , Theatre in Video (2706) American Mathematical Society, MathSciNet (11234) Elsevier, Scopus (17547) Gale Cengage Learning, Eighteenth Century Collections Online (11950) JSTOR Archive, 8 Collections, 2011-2014 (Arts & Sciences 1-7 & Life Sciences) (182023) ProQuest, Canada's Heritage Globe & Mail, 1844+ (23565) ProQuest, Historical Newspapers (206796) ProQuest, Periodicals Archive Online (155288) Royal Society of Chemistry, Merck Index Online (260) Royal Society of Chemistry, RSC Electronic Journals (1312) Taylor & Francis (26740) The Times Digital Archive (Gale) (1214) Thomson Reuters, Web of Knowelge, Biosis Citation Index (1385) Thomson Reuters, Web of Knowelge, Journal Citation Reports (O) Thomson Reuters, Web of Knowelge, Web of Science (36318) Wiley-Blackwell Electronic Journals (10898) PsycInfo (1490819) Project MUSE (1376339) Business Source Complete (1483874) 1.3 The ejournals on the following platforms were included (full-text article requests in brackets): American Chemical Society, Journals (39675) American Mathematical Society, MathSciNet (710) CAIRN, Bouquet GÃ©nÃ©ral (6548) Cambridge University Press, Cambridge Journals Online (12623) Elsevier, Science Direct (592411) Ã‰rudit, Scholarly Journals Collection (11625) Institute of Physics, IOP Journals (12318) JSTOR Archive, 8 Collections, 2011-2014 (Arts & Sciences 1-7 & Life Sciences) (453761) NRC Research Press (3349) Oxford University Press, Oxford Journals Online (44381) Royal Society of Chemistry, RSC Electronic Journals (14046) Sage Publications, Deep Backfile (10209) Sage Publications, Premier All-Access (113594) Springer, Online Journals (105691) Taylor & Francis, Journals Online (160383) Wiley-Blackwell Electronic Journals (137697) Project MUSE (70023).

²³ #1.1 to #1.3 - These statistics are for a sample of databases. The statistics for some databases included in 2017-2018 were not available for 2018-2019.

²⁴ This is the record views in the databases.

²⁵ 1.1 - 1.3 - Data was retrieved in Spring 2019 - The CRKN subscriptions included are: American Chemical Society, Legacy Archives; American Chemical Society, Web Editions; American Mathematical Society, MathSciNet; Cambridge University Press, Cambridge Journals Online; Érudit, Scholarly Journals Collection; Gale Cengage Learning, 18th-Century Collections; Gale Cengage Learning, Times Digital Archive; Institute of Physics, IOP Journals; InteLex/Gibson Library Connections, InteLex Past Masters; NRC Research Press Journals; Oxford University Press, Oxford Journals Online; ProQuest, Canada's Heritage Globe & Mail 1844+; ProQuest, Periodicals Archive Online; Royal Society of Chemistry, RSC Electronic Journals; SAGE Publications, Premier All-Access; Science Direct (including Academic Press); Springer, SpringerLink Online Journals; Taylor & Francis, Journals Online - Complete Collection; Thomson Reuters, Web of Science; and Wiley-Blackwell Electronic Journals. - CRKN CAIRN subscription dropped in 2018/19. - The following CRKN subscriptions were excluded because COUNTER compliant usage statistics were not available: Adam Matthew Digital Collections; Alexander Street Press, Classical Scores Library; Alexander Street Press, Theatre in Video; Alexander Street Press, Various Databases; ARTstor Digital Library; Country Reports & Viewswire (EIU); Early Canadiana Online; and Proquest, House of Commons Parliamentary Papers, Journal Citation Reports. Data for Ingram Digital E-Books has been excluded since we were not able to distinguish between items purchased through CRKN items those purchased independently. - COUNTER compliant session [DB1] data was not available for: Thomson Reuters, Web of Knowledge, Journal Citation Reports. - COUNTER compliant search data was available for: Academic Search Premier; American Chemical Society, Web Editions; MathSciNet; Business Source Complete; Gale Cengage Learning, 18th-Century Collections; Gale Cengage Learning, Times Digital Archive; JSTOR; NRC Research Press Journals; Project Muse; ProQuest Historical Newspapers: The Globe and Mail; ProQuest, Periodicals Archive Online ; PsychInfo; Royal Society of Chemistry Journals; Taylor & Francis, Journals Online; Thomson Reuters, Web of Science - COUNTER compliant full text article data in Counter 4 formats was available for: Academic Search Premier; Academic Press Journal Collection; American Chemical Society, Legacy Archives; American Chemical Society, Web Editions; Cambridge University Press â€“ Cambridge Journals Online ; Érudit, Scholarly Journals Collection; Institute of Physics, IOP Journals; InteLex/Gibson Library Connections, InteLex Past Masters; JSTOR ; NRC Research Press Journals: Oxford University Press, Oxford Journals Online; Project Muse: Royal Society of Chemistry, RSC Electronic Journals; SAGE Publications, Premier All-Access; Springer, SpringerLink Online Journals; Taylor & Francis, Journals

Online - Complete Collection; Wiley-Blackwell Electronic Journals - Usage is down slightly across the sampled subscriptions.

²⁶ This is UNB's first submission which includes both the Fredericton and Saint John campuses as the Libraries across both campuses were integrated in 2018.

²⁷ Reporting for: Project Muse, PsycInfo, Business Source Premier/Ultimate, PAO, JSTOR, Cambridge Journals Online, NRC Research Press, Taylor & Francis Journals Online, Wiley Journals Online, ACS, Royal Society of Chemistry Online, PQ Historical Newspapers (x4), Sage, Scopus, Times Digital Archive, Adam Matthews, Alexander Street Press, ECCO.

²⁸ Reporting for: Project Muse, Business Source Premier/Ultimate, SpringerLINK, Periodicals Archive Online, JSTOR, Oxford Journals, Cambridge Journals, NRC Research Press Journals, Institute of Physics, Taylor & Francis, Wiley, American Chemical Society, Royal Society of Chemistry, PQ Historical Newspapers (x4), SAGE, Science Direct, Times Digital Archives.

²⁹ The numbers for the library catalogues are lower this year for reasons related to the transition to the new system. First, LAC stopped hosting a Z39.50 server. Secondly, LAC started capturing this data in June 2018 for the national union catalogue and in December 2018 for LAC's own catalogue.

³⁰ Data reported in 2018-19 was adjusted to better align with requested info as per the data definitions tab (databases available through CRKN = Scopus + Business Source Complete). Data from 2017-18 was from a completely different database: ProQuest Advanced Technologies and Aerospace.

³¹ Data reported in 2018-19 was adjusted to better align with requested info as per the data definitions tab (products available through CRKN = IOP, RSC, Canadian Science Publishing, Elsevier ScienceDirect, Wiley, ACS, OUP, Springer). Data for 2017-18 reflected all article requests, not requests from the specified subset.

³² Decrease from prior year is due to engineering students no longer having English sessions as the engineer teachers had no time and instead there were online sessions that students could look at on their own time.

³³ Decrease from prior year is due to engineering students no longer having English sessions as the engineer teachers had no time and instead there were online sessions that students could look at on their own time.

³⁴ Increase from prior year is due to a chat widget that initiated inquiries was implemented for a full year in 2018-19 where as in 2017-18 it was partially implemented in the year.

³⁵ Archival stats are now included. First Nations University of Canada did not report in 2017-18. Campion College Library and Luther College Library are not included.

³⁶ Includes all in-person (not online) sessions for learning communities, multi-session/credit courses, one-off sessions/workshops, orientations/tours, structured study sessions, and group training sessions for synthesis reviews.

³⁷ Includes participants in all in-person (not online) sessions for learning communities, multi-session/credit courses, one-off sessions/ workshops, orientations/ tours, structured study sessions, and group training sessions for synthesis reviews.

³⁸ Includes reference transactions, one-to-one instruction, and preliminary consults/consults/ individual training for synthesis reviews.

³⁹ Decrease in seats primarily due to Murray Library renovating some spaces whereby chairs were removed; removal of broken chairs (not replaced); and errors in 2018 data where stacked spare chairs in some rooms were counted and soft seats on one floor were counted twice. Also due to Education & Music Library removing tables and replacing with study carrels; replacing old tables/chairs with fewer, newer ones.

⁴⁰ The value for library presentations reported in 2017-2018 (1,981) was in error. The correct value was 2,136.

⁴¹ The value for the number of seats in the library for 2017-2018 (3,088) was erroneous. The correct value was 3,242.

⁴² The number of presentations to groups/instruction sessions in 2018-2019 increased over the previous year. The expansion of 1st year communication classes accounts for much of this increase in instruction sessions and total participants. It is expected that this trend will continue for 2019-2020 as additional Faculties added 1st year communication classes.

⁴³ Reference transactions declined across all information services except the Geospatial Centre which saw a slight increase over the previous year. The largest drop in reference transactions was recorded at the Musagetes Architecture Library. There is no apparent reason for this drop, other than it appearing to be a slow year. Reference statistics recorded to date at Musagetes for the 2019-2020 reporting year are more similar in number to those reported in previous years. The 2018-2019 will be considered an anomaly. In 2019-2020 the impact of proactive chat and more regular reporting at the Witer Learning Resource Centre for the Winter 2020 term are anticipated to have an impact on the total number of reference transactions recorded for this year."

⁴⁴ We are again experiencing malfunctions with our gate counters. When our gate counter was down, we used the past five years of counts to provide a low estimate.

⁴⁵ Number of library presentations to groups: As a result of ORI new team just formed and outreach related to Teaching and Learning minimal For all of the following: changes due to alteration in reporting, ORI-related gaps in service and transition to ALMA platform freeze.

⁴⁶ The number of participants to general/non-subject workshops was variable, and at times low. Because of this, we reduced the number of general workshops offered in 2018-

⁴⁷ The number of participants to general/non-subject workshops was variable, and at times low. Because of this, we reduced the number of general workshops offered in 2018-19.

⁴⁸ Le nombre de transactions de référence éclaré en 2018-2019 a diminué car l'ancienne statistique était basée sur une erreur d'interprétation des directives.

⁴⁹ Fewer (but more in-depth) questions being asked; some under reporting is also likely

⁵⁰ Increase due to the fact that only 6 months of stats were available for the MacRae Library for 2017-18.

⁵¹ Chairs in Killam Learning Commons inadvertently not counted in 2017-18.

⁵² These are competitive & technical intelligence deliverables for 2018-19.

⁵³ Total number of requests received from other institutions filled. Numbers are correct. The Library's purchasing of print materials is much lower than in the past which is reflected in a lower number of requests for newer materials.

⁵⁴ Total number of originals sent. Numbers are correct. The Library's purchasing of print materials is much lower than in the past which is reflected in a lower number of requests for newer materials.

⁵⁵ Increase may be partly due to a recent catalogue reclamation project with OCLC, which has more accurately represented our library holdings and made our collection more discoverable to other libraries.

⁵⁶ As our subscriptions and licenses increase we have more available online (less need to borrow from other institutions) and more capacity to supply to other institutions.

⁵⁷ Lending requests from BCI institutions have increased from the previous year.

⁵⁸ Due to change in Relais configuration we are no longer able to exclude articles we fill for patrons from our own collection - they are counted as "articles received".

⁵⁹ Decrease from prior year is due to the removal of EBSCO host search results from our Discovery search on the library homepage, which occurred in August 2018. As the total request number decreased, there would be fewer copy and original requests to be filled.

⁶⁰ Decrease from prior year is due to the removal of EBSCO host search results from our Discovery search on the library homepage, which occurred in August 2018. As the total request number decreased, there would be fewer copy and original requests to be filled.

⁶¹ As our subscriptions and licenses increase we have more available online (less need to borrow from other institutions) and more capacity to supply to other institutions.

⁶² In addition to our ILL VDX platform, we also had a trial to RapidILL from September to October 2018. We requested approximately 150 articles through RapidILL during the trial period, which were not recorded. This may help explain the drop in borrowing requests from the previous year.

Note: Salary information is not published when fewer than four individuals are reported ('-'). Blank fields indicate no available data | Les données salariales ne sont pas publiées lorsqu'il y a moins de quatre individus inclus ('-'). Les champs blancs indiquent qu'il n'y a aucune donnée disponible.

Salary Questionnaire

You can submit your data using the WEB form (one by one) or by EMAIL using a spreadsheet like Excel or CSV format. Please follow the example below.

Staff ID	Salary July 1 2020	Category of the position	Years of professional experience	Years of professional experience in the reporting institution

EXAMPLE

You can also enter your data on a spreadsheet using Excel or Quattro.

Please use the following model.

Please Email your spreadsheet as an attachment to: stats@carl-abrc.ca

Institution	Staff ID	Salary July 1 2020	Category of the position	Years of professional experience	Years of professional experience in the reporting institution
University of Ottawa	1		NON-ADMIN		
University of Ottawa	2		ADMIN		
University of Ottawa	3		OTHER		
University of Ottawa	4				
University of Ottawa	5				
University of Ottawa	6				

Questionnaire sur les salaires

Vous pouvez soumettre vos données en utilisant le formulaire WEB ou par courriel en utilisant une feuille de calcul tel Excel ou en format CSV, veuillez suivre l'exemple ci-dessous.

No d'identification	Salaire au 1er juillet 2020	Catégorie du poste	Années d'expérience professionnelle	Années d'expérience professionnelle dans l'institution

EXEMPLE

Vous pouvez aussi saisir vos données en utilisant une feuille de calcul Excel ou Quattro,

Veuillez suivre le modèle ci-dessous,

Veuillez envoyer par courrier électronique votre chiffrier comme annexe à: stats@carl-abrc.ca

Institution	No d'identification	Salaire au 1er juillet 2020	Catégorie du poste	Années d'expérience professionnelle	Années d'expérience professionnelle dans l'institution
